

millennium find

one: Sometimes I feel caught in my world
And all my life seems so in vain
Just the look into your eyes
Can keep me from the deepest pain
Sometimes it's like my lonely life
Is fading in the days and nights
Just the look into your eyes
Can take me to the highest heights

chorus: You are my millennium find
You're conquering my heart and mind
You're my new reality
I never felt so wild and free

two: Tonight it's like I'm in a dream
I'm flowing in a stream of love
Just a look into your eyes
Can fly me to the skies above
Sometimes I'm haunted by illusions
My mortal dreams and fantasies
Just the look into your eyes
Can lead me to reality

chorus

three: When I walk straight into the storm
My life already seems forlorn
Just the look into your eyes
Can save me till the peaceful dawn
Tonight we leave it all behind
Get ready for a brandnew start
Tonight we leave the past behind
And hide up in the skies of love

chorus to fade..
