

Nightwatch

I kiss you goodnight
I kiss you a dream
When you are my river
Then I'll be your stream

Don't you lose heaven
And don't you lose joy
You're my silver lining
And I'll be your gleam

This is my nightwish
Some night it comes true
I'll be on my nightwatch
I'll guard over you

Some dreams are in vain
And some full of pleasure
So never say never
Some dreams last forever

I banish those shadows
Conjuring up sorrow
When you are in darkness
I'll be your tomorrow

Beyond all the reason
Amongst inspiration
For me you're my fairy
I'm your incantation

This is my nightwish
It's only for you
I'll be on my nightwatch
I'll guard over you

Some dreams are in vain
And some full of pleasure
Let's never say never
Cause some last forever
