

A little piece of heaven

one: When you stand aside
When you face your darkest night
Without a way
And without a guiding light

two: Don't feel so blue
Trust the voice inside of you
Always believe
In yourself and in your dreams

three: When your dreams call
When your star is due to fall
You must take heart
Raise your head and you can be

chorus one: A little piece of heaven
Everything you want to be
A little piece of heaven
Everyone can see

four: Don't feel so blue
Suddenly dreams can come true
Tomorrow's dawn
Holds a brand new chance for you

five: I stand by your side
I will shine your guiding light
If you believe
You can succeed in everything

six: You reach the stars
When you take your chance you'll see
You are a hero
And someday you will be free

chorus two: A little piece of heaven
Everything you want to be
A little piece of heaven
Everyone can see

A little piece of joy
Everything you dreamed to be
A little peace of love
Everyone must feel

seven: Everything in me
Is believing you can be
A little piece of heaven
Someday you will shine for me

c-part: No matter where you go
No matter where you're coming from
No matter who you are
No matter what you've done before
You can be
You will be...

chorus two to fade
